Education

National Institute of Technology Kurukshetra

Expected May 2029

Bachelor of Science in Information Technology(GPA: 8.45 / 10.00) Kurukshetra Haryana

• **Relevant Coursework** : Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, and Web Technologies.

Software Development Engineer Intern

Ghanshyam Aaditya Advisory | June 2026 – July 2026

- Developed and enhanced features for a React, Node.js, and PostgreSQL-based e-commerce platform.
- Built the Wishlist feature and improved the OTP-based authentication and registration.
- Implemented seller and admin dashboard features, including Gemini API integration for product keyword extraction.
- Developed the Razorpay checkout UI, Product Preview page, and integrated the TipTap rich text editor.
- Collaborated with a cross-functional team using Git/GitHub to deliver production-ready features.

Projects

BlogChit – Full Stack Blogging & Community Platform

Tech: React, Vite, Node.js, Express.js, MongoDB, Socket.IO, JWT, TipTap, GSAP, Razorpay

- Developed a full-stack blogging platform featuring rich-text editing, blog moderation, and category-based content discovery.
- Implemented JWT & Google OAuth authentication with OTP-based email verification and secure password recovery.
- Built real-time direct messaging and community chat using Socket.IO with unread notifications and message synchronization.
- Integrated Razorpay for premium subscriptions and developed an admin dashboard for blog moderation and user management.

ScamShield – AI Powered Scam Detection Platform

Tech: React, Express.js, MongoDB, OpenAI/Gemini API, JWT, Cloudinary

- Built an AI-assisted platform for scam reporting and analysis using LLMs and external security APIs.
- Implemented phishing detection, scam scoring, screenshot/document analysis, and searchable scam reports.
- Developed secure authentication, role-based access control, and an admin verification portal.

Technical Skills

Languages: C++, C, JavaScript, Python

Web Development: React, Redux, Next.js, Javascript,, SQL, MongoDB

Developer Tools: Git, GitHub, Linux, LaTeX

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming

Achievements

- **Finalist** – DCRUST Murthal Hackathon; participated in SIH and multiple inter-college hackathons.
- **Freelance Developer** – Delivered production-ready web solutions while collaborating with a real client.
