SUMMARY

Computer Science undergraduate at NIT Kurukshetra with a strong foundation in MERN Stack development, problem-solving, and API integration. Passionate about building scalable web applications and exploring AI technologies.

EDUCATION

2023 - 2024

Higher Secondary Education

Yaduvanshi Siksha Niketan, Patikara, Narnaul

- Received merit scholarship for academic excellence

2025 - 2029

B.Tech in Computer Science and Engineering

National Institute of Technology, Kurukshetra

- Pursuing B.Tech in Computer Science with Honors

PROJECTS

Hostel Management Website

Tech Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Developed a full-stack hostel management platform for students and administrators.
- Implemented room allocation, student registration, complaint management, and attendance tracking features.
- Designed secure authentication and role-based access control.
- Integrated MongoDB for efficient data storage and management.
- Improved hostel administration by automating manual processes.

ScamShield

Tech Stack: MERN Stack, AI/ML APIs

- Built a fraud and scam detection platform to identify suspicious messages, emails, and URLs.
- Integrated AI-based analysis to classify potential scams and phishing attempts.
- Developed a user-friendly dashboard for scam reporting and threat monitoring.
- Implemented real-time API integration for enhanced security.
- Focused on improving cybersecurity awareness and user protection.

BlogChit

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Created a blogging platform where users can write, edit, publish, and manage articles.
- Implemented user authentication and authorization using JWT.
- Designed responsive UI for seamless reading and content creation experience.
- Added features such as comments, likes, and category-based post organization.
- Optimized backend APIs for efficient content management.

ACHIEVEMENTS

- Merit Scholarship recipient for academic excellence.
- Secured admission to NIT Kurukshetra in Computer Science Engineering.
- Built multiple full-stack web applications using the MERN stack.
- Actively learning AI integration and modern web development technologies.

SKILLS

Programming Languages

JavaScript
